DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-17 and 33-37 drawn to watermarking, classified in class 382, subclass 100.
 - Claims 18-32, drawn to electronic shopping, classified in class 705, subclass 27.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I-III are related subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as providing content providers with the ability to track content over a network. Invention II has separate utility such as purchasing electronic information using a credit, debit or smart card.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
